

Business and Technology Consulting

In a fast changing Environment, achieving strategic alignment between your business objectives and IT initiatives can indeed be a hard task. Netsoft's Business and Technology Consulting weaves together elements of your strategic business objectives and your technology environment to deliver better results - faster!

Maximize Your Returns. Faster.

Increasing complexity of business and technology decisions in a fiercely competitive, global environment makes it harder for small businesses as well as enterprises to stay focused on core operations and to grow their business. To stay competitive, businesses have to cater to the unique needs of all stakeholders, including customers, partners, suppliers, investors, employees and, of course, the board. With Netsoft as your consulting partner, you get faster, better results, obtained within your current cost framework.

“The result of our continuous engagement with Netsoft since early 2001 is visible in the solutions that Netsoft has been creating for AFCP and we truly feel that AFCP now has a trusted partner for its future technology initiatives as well. The relationship with Netsoft insulates us from rapid changes in the technology landscape and helps AFCP plot its future course better and in a much more confident way than before!”

Craig McMullin
Executive Director, AFCP

From managing heterogeneous computing environments, guiding the implementation of new solutions, or designing custom software, your challenges are unique. By combining the exceptional technical strength of our consultants, with unmatched business acumen and understanding, Netsoft can help you navigate the challenges better. From strategy formulation, technology evaluation and solution design, to actual implementation and post-implementation support, upgrades and maintenance, we can help you better manage your technology investment and while enhancing the quality of information your information infrastructure generates.

Unmatched Technology Expertise

Intimate knowledge of diverse technology platforms, an understanding of your business requirements, and expertise based on hundreds of successful engagements in over 21 countries, is what makes Netsoft a unique partner for your business and technology consulting requirements. For effective strategy formulation and planning the tactical moves to a better technology infrastructure, to custom programming and ongoing management of your technology initiatives, you can rely on our consultants to guide you along the way.

Your success is our success and that's all we believe in. Each of our consultants go through hundreds of mandatory knowledge acquisition sessions, along with the experience gained on cutting edge applications – just to ensure you have access to the finest available talent at all times.

Single Vendor Accountability

By relying on Netsoft as your consulting partner, you benefit by having one source for all your technology needs, minimizing coordination problems between multiple vendors, and ensuring faster roll out of your initiatives. You also have a single vendor who is accountable for the results delivered, along with our commitment to the success of your project.

Solutions for “Your” Need

We know your needs are unique. So are our solutions. Netsoft provides a range of services and solutions tailored to suit your specific requirements, while leveraging our knowledge base.

Onsite. Offshore. NearShore Consulting Support When You Need It!

Our consulting services are delivered using a flexible Distributed Engagement Model that helps us tailor our services to your exact needs. Whether you are a Small Business looking for technology advice, or an Enterprise grappling with a complex technology environment, we can help.

From cost-optimized offshore staff augmentation, to onsite consulting, you'll find that perfect solution with our consultants at your side. Trust us to be your true partner in growth.

Be More Competitive. Grow Your Business.

For Small Business Customers, we offer cost-optimized offshore solutions where customers pay for actually utilized consulting resources, instead of more expensive retainer models other consulting companies offer. For Medium and Large enterprises, we offer dedicated consulting resources that work as a virtual extension of your teams, and bring with them the width of experience and the depth of expertise in distinct industry verticals and technology platform.

Share the Knowledge

Netsoft works with your Project Teams, IT staff and business users, to equip them with the knowledge they need to plan and execute strategic as well as operational IT projects without further interventions from Netsoft. We work within your strategic framework, and once the results are delivered, we let you take over full control of your infrastructure and other technology initiatives.

Maximize Your Returns

Our consulting services help you identify and mitigate technology risks early on and deliver flexible, scalable, and cost-effective systems. As a part of the consulting engagement, you get a personal, long-term enterprise relationship with Netsoft designed to maximize the value of your technology investments, lower your risk and deliver affordable solutions.

Focus On The Core

For businesses constantly on the move, time is precious. While you focus on your core operations and grow your business, we take care of all your technology planning, execution, management and support. What this means for you is - better focus, lower costs, lower risks and being able to keep pace with the fast-changing business environment. Our consulting services cover the entire spectrum of technology needs for businesses of all sizes. Areas where we can help you include:

- Information Infrastructure Strategy
- Legacy Systems Re-engineering and Migration
- System Integration
- Custom Application Development
- Usability and User Experience Design
- Maintenance, Support and Upgrades
- OnDemand Consulting for Small Businesses

Our knowledge management systems, defined processes and a range of in-house technology competence areas ensures that you can expect, and get, the best in business technology consulting there is.

So, if you are ready to move to the first step, speak to us, or visit us at www.netsoftglobal.com/consulting to have a Netsoft Consultant contact you to discuss the needs further

Netsoft provides technology solutions, services and products for Small Business, Enterprise customers, and Public Sector Organizations worldwide. Extending across a range of industry verticals and technology competence areas, our consultants have worked with clients in 21 countries and have helped hundreds of organizations derive value from their technology. As a cornerstone of our strategy, we collaborate with our customers to help them meet the challenges of the information age, to help them align their business strategies with their technology initiatives.
